

Automated ball valve solutions for your unique applications

Electrically Automated Brass Ball Valves

The EHH Series of DynaMatic electrically automated brass valves work in a wide range of applications and conditions. This series includes our DE, MA, and JE electric actuators. They can be ordered in pre-sized and preassembled automation packages to suit your specifications. The ISO 5211 direct mounting provides accurate alignment and a more compact size compared to traditional actuator mounting styles. All models are pre-sized for clean water, air, or light oil applications.

Key Features:

- NPT female threaded ends
- Forged brass construction
- RTFE seats, PTFE/Viton® stem seals
- Bottom loaded stem
- ISO5211 direct mounting
- Full port
- Multiple voltages available
- For use with potable water

The DynaQuip Difference

For seven decades DynaQuip® has provided superior products and customer service. We offer flexible and innovative solutions for unique customer needs. Our products are assembled, tested, and stored at our St. Clair, Missouri headquarters enabling us to offer quality assurance and industry-best lead times.

- Industry-best lead times
- Personal customer service
- Superior quality products
- Flexible, innovative solutions
