

EHH Electric Automated Brass 2-Piece Ball Valves

Automated multi-purpose ball valve solutions for applications including potable water, natural gas, and compressed air

Electric Automated Brass Ball Valves

The EHH Series of electrically automated brass valves work in a wide range of applications and conditions. This series includes our DE, MA, AVA, and JE electric actuators. They can be ordered in pre-sized and preassembled automation packages to suit your specifications. The ISO 5211 direct mounting provides accurate alignment and a more compact size compared to traditional actuator mounting styles. All models are pre-sized for clean water, air, or light oil applications.

Features

- NPT female threaded ends
- Forged brass construction
- RTFE seats, PTFE/Viton® stem seals
- Bottom loaded stem
- ISO 5211 direct mounting
- Full port
- Multiple voltages available
- For use with potable water

AVA Electric Actuator

- 177 – 974 in./lbs. torque
- 24 VAC/VDC or 95 – 265 VAC/VDC
- Temperature -4 °F to 140 °F
- On/off, failsafe, modulating and hi-speed options

JE Electric Actuator

- 177 - 2655 in./lbs. torque
- 12 VAC/VDC or 24 – 240 VAC/VDC
- Temperature -4 °F to 158 °F
- On/off, failsafe, & modulating options

DE Electric Actuator

- 150 or 300 in./lbs. torque
- 12 – 24 VAC/VDC, 120 VAC, 220 VAC PH1
- Temperature -40 °F to 150 °F

MA Electric Actuator

- 443 – 30,975 in./lbs. torque
- 12 or 24 VAC/VDC, 120 VAC, 220 VAC PH1/PH3, 460 VAC PH3
- Temperature -22 °F to 149 °F
- On/off & modulating options

The DynaQuip Difference

For over eight decades DynaQuip has provided superior products and customer service. We offer flexible and innovative solutions for our unique customer needs. Our products are assembled, tested, and stored at our St. Clair, MO headquarters enabling us to offer quality assurance and industry best lead-times.

- **Industry-best lead times**
- **Personal customer service**
- **Superior quality products**
- **Flexible, innovative solutions**

EHH Electric Automated Ball Valves
