

JE Series Electric Actuators

A feature rich line designed for ease-of-use and reliability

Multi-Voltage SMART Electric Actuators

The innovative JE Series of electric actuators delivers the latest technology at an unmatched value. These actuators are multi-voltage capable with automatic voltage sensing for AC or DC power supply and can be configured for fail-safe or modulating functions as options. JE Series actuators are lightweight, compact, and quick and easy to install.

The DynaQuip Difference

For over eight decades DynaQuip has provided superior products and customer service. We offer flexible and innovative solutions for our unique customer needs. Our products are assembled, tested, and stored at our St. Clair, MO headquarters enabling us to offer quality assurance and industry best lead-times.

- Industry best lead-times
- Personal customer service
- Superior quality products
- Flexible, innovative solutions

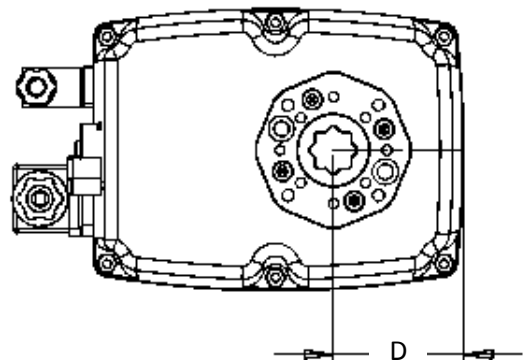

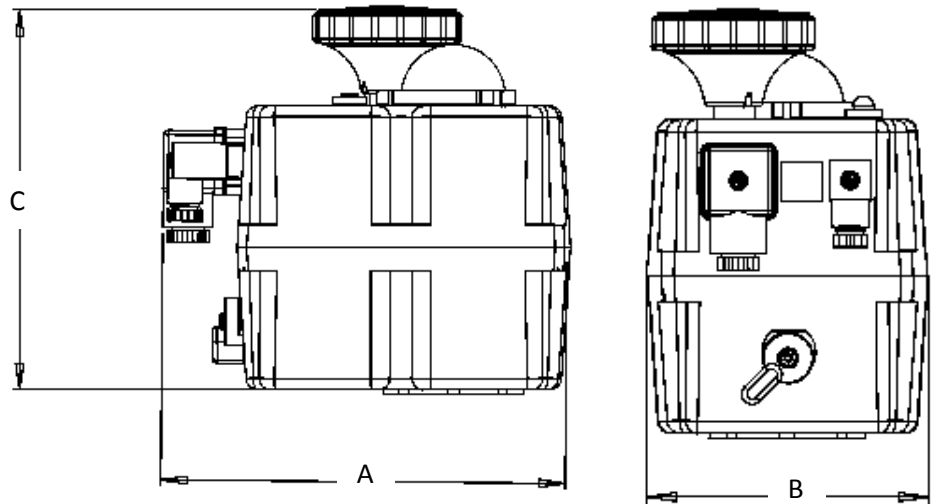

JE Series Features

- Quarter-turn (90°) reversible operation
- Multi-voltage capability (AC/DC)
- Emergency manual override
- Isolated end-of-travel limit switches
- IP67 anti-corrosive, UV-resistant, weatherproof enclosure
- Easy wiring via external DIN plugs
- Automatic temperature control
- Anti-condensation heater
- Electronic torque limiter
- Quarter-turn (90°) reversible operation
- External LED diagnostic light
 - Multi-colored LED light provides continuous visual position indicator dome.
 - Distinctive visual position indicator dome
- Protected electrical supply
- CE Marked
