

PAS Series Pneumatic Automated Ball Valves

High-pressure pneumatic automated stainless steel ball valves. Built to last in the toughest applications.

Pneumatic Automated High-Pressure Ball Valves

The PAS Series of pneumatic automated stainless steel ball valves are designed for high-pressure applications. They can be ordered in pre-sized and preassembled automation packages to suit your specifications. The **ISO 5211 direct mounting** provides accurate alignment and a more compact size compared to traditional actuator mounting styles. The valves feature Delrin seats and an investment cast stainless steel body.

Key Features

- 2-piece stainless steel body
- ISO 5211 direct mounting pad
- Full port, sizes 1/4" to 1-1/2"
- Reduced port, sizes 2"
- Blow out proof stem/anti-static design
- Pressure rating 3000 psi (@ 100°F)
- Temperature range -20°F to 185°F
- Delrin seats and Viton stem seal

The DynaQuip Difference

For over eight decades DynaQuip® has provided superior products and customer service. We offer flexible and innovative solutions for our unique customer needs. Our products are assembled, tested, and stored at our St. Clair, MO headquarters enabling us to offer quality assurance and industry best lead-times.

- Industry-best lead times
- Personal customer service
- Superior quality products
- Flexible, innovative solutions
