

## Automated ball valve solutions for your unique applications

### Pneumatically Actuated Brass Ball Valves

The PHH DynaMatic Series of high-cycling pneumatically actuated brass valves offer an excellent option for automated applications where economical, yet rugged forged brass is required. DynaQuip's pioneering direct mount valve design is compact and eliminates the need for brackets which reduces side-loading or other misalignment concerns. These pneumatically automated valves are available with double acting or spring return (specify fail-open or fail-close action).

#### Key Features:

- NPT female threaded ends
- Forged brass construction
- RTFE seats, PTFE/Viton® stem seals
- Chrome ball plated
- For use with potable water

#### Additional assembly options:

- Pilot Solenoid Valves
- Valve position limit switches
- Pneumatic or electro-pneumatic positioners
- Speed controls

### The DynaQuip Difference

For seven decades DynaQuip® has provided superior products and customer service. We offer flexible and innovative solutions for unique customer needs. Our products are assembled, tested, and stored at our St. Clair, Missouri headquarters enabling us to offer quality assurance and industry-best lead times.

- Industry-best lead times
- Personal customer service
- Superior quality products
- Flexible, innovative solutions

# PHH Series Pneumatically Automated Ball Valves
