

DynaQuip Controls Corporation Statement on SVHC Substances

At DynaQuip Controls Corporation, we are committed to delivering high-quality products that not only meet the needs of our customers but also prioritize environmental and safety standards. We take a proactive approach to ensuring that our products are safe for both our customers and the environment. In line with this commitment, we affirm that substances of very high concern (SVHC) are not used in the manufacture or assembly of our products.

List of SVHC Substances and Current Compliance Date:

As of our latest review in accordance with Article 59(10) of the REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) Regulation, we confirm that none of the 247 current SVHC substances are used in the manufacture or assembly of our products.

Our ongoing commitment to the elimination of SVHC substances from our products is driven by our dedication to meeting and exceeding regulatory requirements, as well as our responsibility to protect the well-being of our customers and the environment. We regularly review our manufacturing and supply chain processes to ensure compliance with the latest SVHC regulations, as published by the European Chemicals Agency (ECHA) in accordance with Article 59(10) of the REACH Regulation. We strive to find alternative materials and methods that are both sustainable and safe.

DynaQuip Controls Corporation is dedicated to upholding the highest standards of product quality, safety, and environmental responsibility. We understand the importance of transparency in these matters and are committed to keeping our customers informed about our ongoing efforts to eliminate SVHC substances from our products.

For any inquiries or further information regarding our SVHC compliance and product safety measures, please do not hesitate to contact our customer support team.

Sincerely,

DynaQuip
